GRAND CRU

**Domaine Pierre Morey**  
*White wine*

Classification : Grand Cru

Area (ha) : 0.49

Average year of plantation: 1992

Grape variety: Chardonnay

Distinguished by its excellent situation, just under Montrachet, its soil is beautiful, not too deep, and rich ; the subsoil has a good drainage.

This is a wine of contrasts : powerful, rich, with a good length, it becomes more refined very slowly.

**Domaine Pierre Morey**  
*White wine*

Classification : 1<sup>er</sup> cru

Area (ha) : 0.52

Average year of plantation: 1985

Grape variety: Chardonnay

Located in the lieu-dit "Perrières dessous", this parcel is in the South of Meursault, just next to Puligny-Montrachet.

It is a small, very stony "clos" (walled vineyard) because of its proximity to an old quarry.

Sun exposure is perfect, well protected from the wind ; heat is incremented by the sun reflection sur les on the numerous stones.

Meursault Perrières is an astonishing structured wine, powerful on one hand, mineral on the other hand, and the amplex et une longueur in the mouth is unrivalled.

It is a wine for long ageing (minimum 6-10 years), sometimes more than 20 years.

## MEURSAULT LES TESSONS

VILLAGE

**Domaine Pierre Morey**

Classification : village

Area (ha) : 0.89

Average year of plantation: 1978

Grape variety: Chardonnay

Just above the village of Meursault, in the medium slope, soil is very stony so it's a mineral wine.

Les Tesson are at the same altitude than premiers crus.

Fine and elegant, complex and "very Meursault style", Les Tesson can age for a long time because of its minerality.

Domaine Pierre MOREY takes care of 3 vines in Meursault appellation :

Les Forges : in Montheilies's direction, not deep soils, sprinkled with little stones and gravels.

Les Pellans : south part of Meursault, near Meursault Charmes premier cru, au sud de Meursault, next to Puligny-Montrachet, gravely soils.

Les Chaumes de Narvaux : very stony soil, situated between Les Narvaux and Blagny, at the top of the slope.

Usually, Meursault Pierre MOREY comes from blending of these 3 lieux-dits, giving a well-balanced and typical wine from Meursault : dry and mellow at once, ample, racy and fruity.

All the vineyards from Domaine Pierre MOREY producing Bourgogne Aligoté are located in the Meursault area in relatively deep, clay and chalk soils.

Aligoté is a Burgundian variety (Kir is a traditional Burgundian aperitif made with Bourgogne Aligoté plus blackcurrent liqueur).

Bourgogne Aligoté is a dry wine, with a good acidity and a medium strength. Maturing is mostly done in tanks during 12 months, to promote freshness and ses notes fruitées.

Usually, Bourgogne Aligoté is an early wine but coming from Domaine Pierre MOREY, it can be kept for many years !

*Red wine*

Classification : 1<sup>er</sup> cru

Area (ha) : 0.43

Average year of plantation: 1965

Grape variety: Pinot Noir

It is a beautiful vineyard situated in the middle of the slope, well protected from the wind, with good draining. The limestone (rock) is close to the surface and has very red soils.

Pommard wines are well-known for tannic and austere wines in their youth. Nevertheless, Grands Epenots is undeniably the most delicate and refined of the village, keeping a good structure to secure a good ageing.

This premier cru is distinctive because its finesse, elegance and fruit qualities, similar to wines from the Beaune area.

1<sup>ER</sup> CRU

**Domaine Pierre Morey**  
*Red wine*

Classification : 1<sup>er</sup> cru

Average year of plantation: 1974

Grape variety: Pinot Noir

We bought this vineyard at the end of 2003 in lieu-dit Les Pétures, in the North of Meursault (even if the name is VOLNAY Santenots, this premier cru is completely produced in the Meursault area).

Located in the middle of the slope, the parcel is very well protected from the wind. Soils are rather shallow, very red and have a very delicate structure which is easy to work (ploughing,...)

From 1999 to 2003 included, Volnay Santenots was produced under the Morey-Blanc label. Beginning with the 2004 harvest, it is a biodynamic wine from Domaine Pierre MOREY. Allying finesse and elegance, is velvety (soft in the mouth) and heady, Volnay Santenots is a relatively rich wine.

Located in the North Meursault area, next to the Volnay Santenots premier cru appellation, Les Durots have soils that are deep, poor and stony (more clay than chalk).

The wines have a beautiful colour intensity, they are powerful, robust and tannic so the stiffness in their youth needs (a long) time to soften.

This is a wine that needs time to fully develop its potential. Optimal cellaring time should be from 10 or 15 years.

Classification : Village

Area (ha) : 1.32

Average year of plantation: 1965

Grape variety: Pinot Noir

Domaine Pierre MOREY cultivates several little plots in 6 lieux-dits distributed in the heart of the appellation and all around the village. Some plots have red soils, others are more chalky, with a lot of stones.

Blending of these vineyards (slope and gentle-slope) produces a charming wine which is soft in the mouth from its youth. In addition to the beautiful expression of red fruits, there is a good tannin balance, which suggests that these wines will taste best if aged from 5 to 8 years, in most vintages.

## CORTON RENARDES

GRAND CRU

**Morey-Blanc**  
*Red wine*

Classification : Grand cru

Vintages : Since 2000

Grape variety: Pinot noir

This terroir is very specific and develop a rapping but unctuous wine, allying subtlety and complexity Tannins are harmonious and delicate.

It is a wine which open quite quickly despite its state of grand cru : Renardes ( = fox) develop fox aromas (opening, under-wood, mushrooms...).

## MONTRACHET

GRAND CRU

### Morey-Blanc

*White wine*

Classification : Grand cru

Vintages : Since 1991

Grape variety: Chardonnay

1991 is both the last Montrachet vintage for Domaine Pierre Morey (PM worked on this 0.32 ha vineyard during 28 years), and the first under Morey-Blanc label.

The most famous Côte de Beaune “terroir” is named Montrachet because of the name of the hill “Mont Rachaz(t)” (= denuded mountain). This appellation area is only 8 hectares.

Its fullness and balance are unrivalled, it is the most magic wine in Burgundy.

Usually spectacular in its youth, it can age during decades.
